

At The University of Alabama's Culverhouse College of Commerce you have many ways to prepare for success in each of these interrelated fields, including: dynamic classes, The Alabama Insurance Society, Epsilon Honor Chapter of Gamma Iota Sigma, field trips and other life experiences. Through these and other activities you will have an opportunity to:

- Develop leadership and teambuilding skills that will help you achieve your career goals
- Hear outstanding industry speakers on important topics relating to your future
- Meet and learn from industry executives, professionals and senior governmental officials—often in an informal setting
- Obtain knowledge and hands-on experience that will prepare you for the exciting career of your choice
- Travel to workshops and seminars for personal and professional development
- Attend national and international meetings as a guest
- Receive assistance for job and internship placement
- Obtain insights that help you to help others

Risk Management & Insurance have been taught at Culverhouse College of Commerce since 1921. Recognized nationally for excellence in education, Culverhouse is also the home of the Insurance Hall of Fame Museum and the Insurance Hall of Fame Portrait Gallery. Students enjoy facilities supported by insurance, brokerage, risk management, actuarial and other forms of financial institutions from throughout the world.

An outstanding faculty, sustained in part by funds contributed by the private sector, engages students in theory as well as real-world experiences and prepares them for successful careers. Outstanding national and international speakers, from industry professionals to government representatives, enliven classes and extra-curricular activities.

Many opportunities for financial support are available for students.
